W2CC123 Prototype Classroom of the Future

Steve Slifka, Education Consultant, PolyVision

Session Description:

Developed with classroom insights and thorough research, this course will help you discover the benefits of designing a space that facilitates optimal transfer of knowledge, enhanced collaboration and addresses multiple learning styles.

Learning Objectives:

- 1.) Discuss research pertaining to classroom development.
- 2.) Discover the benefits of designing space to facilitate the transfer of knowledge.
- 3.) Understand how teaching for multiple learning styles can be achieved through design.
- 4.) Learn how collaboration between designers and clients can benefit the project as a whole.

Room: S210E
